Dear Parents and Carers,

When reviewing reporting systems, we have been considering ways in which we move away from written reports towards regular conversations that give parents a clearer understanding of their child as a learner. We are working towards a more structured and supportive system that will include:

## **Autumn Term**

**September: Open Classroom sessions** - Parents will be invited into classrooms to look at their child's books, see the learning environment and speak informally with teachers. This will provide early insight into expectations, routines and learning in practice.

**November: Parents' Evening** - A more formal opportunity to discuss assessment information, progress made, attainment and next steps, once teachers have had time to gather and analyse meaningful data.

## **Spring term**

**Ongoing communication as needed** - This may include telephone calls, emails, meetings or face-to-face conversations where appropriate, particularly if additional support or discussion is required.

**Open Classroom session** - Parents will be invited into classrooms to look at their child's books, see the learning environment and speak informally with teachers. This will provide an opportunity to review your child's learning alongside them.

## **Summer Term**

**End of year written report** - A written report summarising your child's achievements, progress and next steps.

This approach is designed to ensure that communication is timely, relevant and centred around your child, while also allowing teachers to focus their time on high-quality teaching and learning. We are striving to create systems that support pupils, parents and staff and your feedback remains an important part of that process.
